SULZER WAS FREE TO USE SCHIFF'S MONEY

Banker Declares Designation of Check as a Contribution Did Not Restrict Its Use

MORGENTHAU BEFORE COURT

Callen Decides Where Money Was Given With Consent It Could Be Used in Any Manner, Such Use Was Not Larceny

ATTACK ON TAMMANY INTIMATED

ALBANY, N. Y., Sept. 24.—Governor Sulzer was free to use the \$2,500 check given him by Jacob H. Schiff, a New York banker, in any way he chose. The banker so declared today on the witness stand at the impeachment trial of the governor. The designation of the check across its back as a contribution to the governor's campaign fund, did not restrict its use to that purpose Mr. Schiff said. **Morgenthau Placed No Limitations.**

Henry Morgenthau, ambassador to Turkey, formerly chairman of the finance committee on the national Democratic committee testified that when he gave the governor a check for \$1,000—a personal contribution—he had placed no limitations on its use. He said, however, that he had made the gift to help the governor in his campaign and had been thoroughly generous.

These are two of the alleged campaign contributions which the articles of impeachment against the governor charge that he misused.

"It possibly cannot make any difference in this case, but if I were sitting in a criminal prosecution," said Judge Edgar M. Cullen, president of the court. "I should have to charge the petit jury that, if the owner consented to the use in any manner of the money or check given, by the party to whom it was delivered, such use would not constitute larceny."

Marks Opening of Trial.

The testimony and the ruling of the presiding judge thereon marked the opening of the actual trial of the impeached executive which up to noon today had been delayed by arguments of objections of counsel for the defense. At that hour all obstacles to the taking of testimony had been swept aside by vote of the court, thereby permitting counsel for the managers of the impeachment, to outline the evidence against the governor. This opened the case.

The last of these obstacles—the motion of the defense to quash the three articles of the impeachment dealing with the governor's alleged misuse of this campaign contributions was disposed of today in this manner. Presiding Judge Cullen overruled the motion with prelude to its merits and recommended that the decision be reserved until the testimony was all in. This recommendation—termed a pro-forma opinion—was adopted by the court by a vote of 49 to 7. The negative votes were all cast by Democratic senators. Mr. Schiff took the stand after counsel for the prosecution, with Isidor J. Kresel as chief examiner had called on Secretary of State Mitchell May and various officers of the assembly and senate to prove that Governor Sulzer had been duly nominated, elected, sworn into office and impeached.

The banker testified that he had known the governor for many years; that he had written him a letter of congratulation upon his nomination and that later, when the governor called on him he gave him a check for \$2,500. This check, the witness identified and said nothing was said when it was given about what use the money should be put to.

Did Not Constitute Larceny.

It was at this point that the president of the court rendered his decision that where money was given with consent that it could be used in any manner, such use would not constitute larceny. One of the articles of impeachment charges larceny in the alleged misappropriation of campaign funds.

Across the back of the check were the words "Mr. Schiff's contribution toward William Sulzer's campaign expenses." This, the witness said, was written on the check when it was turned over to the Frawley committee and was for the purpose of identifying it. He also said it was the general intent and purpose of the conversation with Governor Sulzer that he could use this \$2,500 for whatever he pleased.

Mr. Morgenthau came next. He said Governor Sulzer visited him at Democratic national headquarters October 15, 1912, to thank him for his assistance in bringing about Sulzer's nomination. During the conversation he gave the governor a check for \$1,000, though Mr. Sulzer had not asked for it. The witness said he did not intend to in any way limit the governor as to the use of the money.

Asks for Tammany Committee Report.

Intimation of the attack, it is reported the governor will make upon Tammany Hall in presenting his side of the case came at the very outset of the testimony today when Attorney Marshall asked Secretary of State May if he had in his files a campaign report of the general committee of Tammany Hall. Mr. May replied that no such report had been

MINING CAMP MARSHAL KILLED BY THREE MEN

AROUSED BY MURDER, SHERIFF ORDERS INCREASED VIGILANCE

Governor Orders Investigation of Shooting—Reports Threaten Other Disorders—Officials Declare Force in Southern Fields Has Increased.

TRINIDAD, Colo., Sept. 24.—Aroused by the killing today of Marshal Robert Lee at Segundo by three men supposed to be striking coal miners and by persistent but unverified reports of further threatened disorders, Sheriff J. S. Grisham tonight ordered increased vigilance at all the coal camps of the county. Deputy Labor Commissioner E. V. Baker, acting upon orders received this afternoon from Governor E. M. Ammons, started an investigation of the shooting.

A posse of more than fifty men is searching the hills for the slayers but a heavy rain has obliterates all tracks. Officials of the operating companies this evening declared their reports showed that the force of men at work in southern Colorado has been increased more than 20% since yesterday morning.

Frank J. Hayes, international vice-president of the United Mine Workers of America, insists that 95 per cent of the men are out and that every mine in the district will be idle tomorrow.

The first disorder in the Colorado coal miners' strike occurred today when Camp Marshal Robert Lee, at Segundo, near here, was shot and killed. According to information received here the shooting was done by three strikers.

Following the shooting at Segundo, reports were circulated that the strikers in various camps are arming and planning to march on the mines which are still in operation. These rumors, while they caused some uneasiness, could not be verified.

GRIEF STRICKEN BRIDE FAILS TO FIND HUSBAND, RETURNS HOME

Claude F. Snyder Disappears From Kankakee Home June 27—Wife Searches Chicago and Minneapolis

Minneapolis, Minn., Sept. 24.—Grief stricken over her failure to find her missing husband in Minneapolis, Mrs. Claude F. Snyder, a 29 year old bride left tonight for her home at Kankakee, Ill. She came here five days ago.

Mrs. Snyder told the police that she and Snyder were married April 15, and lived happily together until June 27. On that day, she said, he disappeared. He was employed in an express office at Kankakee. She learned that he had gone to Chicago. After a month's search in that city Mrs. Snyder discovered a clue that led her to believe that he was in Minneapolis. She found no one here answering her husband's description. According to Mrs. Snyder, her husband was a man of excellent habits.

ESCAPED CONVICT CAPTURED

Chicago, Sept. 24.—James Barry who escaped from the state penitentiary at Joliet yesterday was captured in vacant house here today. Barry told the detectives who arrested him that he had escaped from Joliet to come here and kill a policeman and another witness whose testimony had caused his conviction and a twenty years sentence in Joliet.

INTEREST INCREASES IN UNION MEETING

RECORD WEEK-NIGHT AUDIENCE HEARS STRONG ADDRESS.

"Where Shall I Spend Eternity?" Topic of Compelling Admonition To Unsaved—This Afternoon, "A Woman's Best Friend."

The largest audience present on a week day evening since the beginning of the meetings listened Wednesday to a powerful sermon by Dr. Rees on the all important problems of life, death and everlasting punishment and reward. "Where Shall I Spend Eternity?" the closing sermon of the series begun Sunday, was to the Christian a forcible incentive to a better life and to the sinner a powerful admonition to begin the upward path.

An interesting indication of the meeting's progress was the silent testimony of a thousand christians who stood at the suggestion of the evangelist to proclaim their early allegiance to the church. At a conservative estimate, three fourths of the people in the tent stood when Dr. Rees requested those to arise who had accepted Christ when under twenty years of age. 196 only had united with the church at a more advanced age; 78 from 20 to 30; 19 when from 30 to 40; 6 when between the ages of 40 and 50 and but 3 over the age of sixty.

At 3 o'clock Dr. Rees will address the women of the city on "A Woman's Best Friend." This evening at the regular hour the subject was announced: "The Secret of a Happy Home." Cards were distributed last evening for the second great Sunday mass meeting for men at which Dr. Rees will speak on "A Modern Son."

The Question of Eternity. Taking his text from Matthew 25:46 Dr. Rees discussed the topic: "Where Shall I Spend Eternity?" in part as follows:

"And these shall go away into everlasting punishment, but the righteous into life eternal." The words of our Lord himself absolutely indicated that we must all pass eternity somewhere. The question for each one of us is, "Where shall it be?" Though we go back in history, back to the old pyramids of Egypt, back to the dawn of time we but approach the beginning of backward span that stretches into the past incomprehensibly. If we multiply the whole time of recorded history by a number expressive of the size of a mountain as compared to a grain of sand, we have not begun to measure eternity.

"What shall it profit a man if he loses his soul for earthly gain, though he gain the world? Before he can be safe and can rest secure he must ask himself three direct personal questions. Your sin, has it been forgiven? He has no assurance of a rest in the beyond so long as he carries with him a load of unforgiven sin. Your death, has it been provided for? How many of my audience have prepared for death, beyond the taking out an insurance policy or the preparation of a lot in the cemetery? You provide for your death in this external way, but do you ever ask the question, put one day an innocent boy to his father, 'Is your soul insured? As a third question, each one should ask, 'Your heavenly home, is it secure?' Can you rest content with money houses and lands when you have not prepared a home over the way? May God inspire us to remember that the time is coming and now is when the most treasured possessions of earth will topple as the house of blocks playful constructed by your child. God help us to read our title clear to the mansions in the skies.

REOPEN FAMOUS DIVORCE CASE. Boston, Sept. 24.—The famous divorce case of Rantoul vs. Rantoul, which was heard in February last, in which the complainant, Mrs. Rantoul, avowed her love for Chester C. Rumrill, a wealthy society man of Boston and New London, who had been a classmate of her husband at Harvard, was reopened today, when the petition of Mrs. Rantoul for a modification of the divorce decree came up for hearing in the superior divorce court at East Cambridge.

The proceedings in the divorce case were quite sensational and owing to the social prominence of the parties concerned, attracted considerable attention. Mrs. Rantoul charged her husband with cruel and abusive treatment and was given a decree, giving her the custody of the children during the eight months of the school year and alimony amounting to \$150 a month. In her petition Mrs. Rantoul claims that Mr. Rantoul has violated the terms of the decree in several respects and she demands more alimony.

COACH W. T. HARMON IS HOME FROM INDIAN CAMP

Spent Two Weeks Gaining Football Knowledge at Carlisle, Pa.—Twenty-two men in practice at Illinois.

Coach W. T. Harmon of Illinois college, who has been spending the past two weeks in the camp of the Carlisle Indians at Carlisle, Pa., arrived in the city Wednesday and in the afternoon was giving the varsity bunch of twenty-two husky players a few preliminary instructions relative to the game which will attract the eyes of the real sportsmen until turkey is carved Thanksgiving day. Coach Harmon returns with all sorts of plays, advice and instructions up his sleeve and prospects are mighty bright for a banner year in football, despite the fact that some of the veterans will be absent on the hill this year.

The coach has only the highest words of praise for Coach Glenn Warner of Carlisle, and the way he handles his men. His work is known all over the country and the record of his team speaks volumes of his success. He has as his assistant an Indian named Lonestar. Coach Harmon had the privilege of eating and sleeping in the house which is exclusive for football men. Here the food is cooked such as is best for athletes and here all the maps and charts of the various plays are made and explained to the men. Coach Harmon donned a football suit and got in the game so that he had some real experience.

Naturally it will take several days before a line can be gotten on the men; but the coach expects to have his men going at a good rate of speed in a short time. A practice game with the I. S. D. is scheduled for October 4.

Want Football Games.

Letters have been received from Eureka college, Westminster college in Fulton, Mo., and St. Louis university asking for games, but Coach Harmon's schedule is full. Eureka is starting up football again this year after having abolished the game six or seven years ago.

DEATH OF FORMER

WABASH MANAGER.

James Smith, at one time general traffic manager of the Wabash, and well known in railroad circles throughout the country, is dead at his home in Fort Wayne. Death was due to cerebral hemorrhage and followed a prolonged illness. Mr. Smith, who was 77 years old, had been confined to his home during the last eighteen years. Mr. Smith had a long and varied experience in railroad work and was recognized as an authority in passenger traffic. He started his career as a shipping clerk for the Illinois Central railroad. Later he was appointed general traffic manager of the Wabash and four years later was appointed chairman of the Transcontinental association. He later occupied the same position with the Trans-Missouri association, where he remained until his breakdown in health in 1892.

MISSION STUDY CIRCLE MEETS.

The Mission Study Circle of the Congregational church held its first meeting of the year with Mrs. J. B. Williams, 228 Westminster street, Tuesday evening, with a large attendance. The first part of the year the circle will study "Mexico of Today," and the topic of the first meeting—"The Country and People"—was presented in a very interesting manner by J. A. Palmer. Mrs. Murdoch, who lived in Mexico for twelve years, gave an interesting talk after which a discussion was held. Mrs. Williams read a letter from Mrs. Christian, wife of the Congregational missionary in Japan, and the reports of the different committees were presented. After the meeting a social hour was enjoyed when refreshments were served.

DIVIDE BIG HOLDINGS

OF RIVER BOTTOM LANDS.

The Beardstown Illinois Star states that Messrs. Christie and Lowe, who own large tracts of bottom land near Beardstown, have divided their holdings. The Star says: "Dr. R. H. Garm of this city has been appointed as manager of the George B. Christie farm land in the Coal Creek Drainage and Levee District. He will have full management and supervision of the 2,200 acres of farm land owned by Mr. Christie and modern agricultural ideas are to be followed closely in the cultivation of the lands. Mr. Christie owing to business matters spends the greater part of his time in the south, and consequently must have a manager for his affairs in this city."

"G. B. Christie and Jesse Lowe, the heaviest land owners in the district recently divided their holdings in the district, each one taking individually certain tracts which previously had been held in partnership."

LONG PASTORATES.

Editor Journal—Dear Sir: Your reference to Rev. Dr. Lugg's long pastorates in Rossville will bear revisiting. At Central Methodist Church Newark, N. J., the Rev. Dr. W. H. Morgan has served fourteen years continuously. At Madison Ave., New York City, Rev. Dr. Wallace McMillen is serving his 11th consecutive year. At Third Ave., Columbus, O., Rev. Dr. N. W. Knox County Farm For Sale

Knox county is in the center of the great corn and blue grass region of northeast Missouri. Edina is the county seat, a little city of two thousand people and located just forty miles west of Quincy, Illinois, on the Q. O. & K. C. R. R. Edina is a thriving little city, all branches of business represented, has four banks, eight churches, one of which, a Catholic church, the largest in Missouri outside of the larger cities; a good public school that articulates with the University of Missouri; two parochial schools under a thorough management.

Our little city is on a high elevation overlooking the deep rolling prairies surrounding us.

I am not a land agent, I own this farm and desire to sell it and hence have placed a price where it is bound to sell.

This farm is seven miles north of Edina, four miles from Baring, a town of 500 people on the line of the great Santa Fe R. R., and is one and a half miles from the town of Fabius on same road, all of which furnish good trading points and splendid shipping facilities. One-half mile from school on a good public road; phone connections all over the county, free mail delivery at the door. A nice five-room cottage, mostly new, with loft room sufficient for 25 tons of hay; also corn crib of 1200 bushels capacity, with shed room on two sides; all kinds of fruit of the best variety. This farm is well watered. 239 acres in this farm, all under fence and in a high state of cultivation except 80 acres, which is in timber and blue grass pasture; and is gently rolling, just enough to carry off the surface water. It is well fenced with woven wire into four separate fields. 40 acres is new in meadow; 15 acres pure clover; the remaining 145 acres under the plow this year. I have endeavored to sell my own farm and have adopted this method of doing it. My price is \$75 per acre, on easy terms, if taken in thirty days.

ELOPEMENT AT GRIGGSVILLE.

Griggsville, Ill., Sept. 24.—Albert Phillips and Miss Hazel Dunnaway of this city eloped Saturday to St. Louis, and were married, returning here yesterday. The bride is 15 years old and was a student in the high school. Her husband is about the same age. The parents of the bride objected to the marriage on account of the age of both. They will reside for the present with the bride's sister, Mrs. Albert Ferguson, who just a year ago eloped with her husband and were married in Hannibal.

AN OLD PICTURE.

T. M. Tomlinson found an old photograph yesterday while clearing out things in his store. It represented a place on the southeast corner of the square and was for the purpose of picturing a fine team of white horses driven by D. C. McCoy. On the buildings back of the team were various signs. The corner building now occupied by F. J. Waddell & Co. had on its front T. J. Hook & Co., while west of it were Russell & Lyon and Metcalf & Fell. There was no paving on the square at that time and things were very different from the condition today.

COLLEGE ENROLLMENT BREAKS RECORD

ILLINOIS HAS LARGEST NUMBER IN HISTORY.

One Hundred and Twenty-one in Collegiate Department Exceeds Attendance of 1897—President Rammelkamp and Dr. Post Address Students.

With an enrollment of 121 in Illinois college, all previous records have been broken, was the statement of President C. H. Rammelkamp in his address of welcome at the first chapel exercise Wednesday morning at 9 o'clock. Up to this time the record attendance was in President Bradley's administration in 1897, when there were 119 students in the college proper. In all departments there are 266 students. Whipple has held its own with an enrollment of 56, but four less than in 1912-13. "With sixty new students entering the institution, we certainly have a bumper freshman class," said the president in his comment on the first year class at Illinois college.

The address by President Rammelkamp at the chapel service was followed by a helpful word to the students from the Dr. R. O. Post of the Congregational church. Rev. Mr. Post emphasized the importance in education of personality and of college atmosphere. The scripture lesson, March 14, 1891, was read by the Rev. L. H. Davis of Westminster church and the benediction was pronounced by Rev. Mr. Akers.

J. P. Philip Read played the professional and recessional on the pipe organ and Mrs. Genevieve Clark Wilson, head of the vocal department at conservatory, accompanied by Prof. W. E. Krich, director of the conservatory, sang a solo which was highly appreciated and loudly applauded. The title of Mrs. Wilson's selection was the "Ave Maria" of Faure.

The President's Address.
President Rammelkamp said in part. "I greet all present here this morning and bid you welcome. I am glad to see the familiar faces which are before me and I am especially glad to see so many new ones here too. In spite of the dry weather attendance is gratifyingly large for which we are grateful. The registration is the greatest it has been in the history of the institution. We have now 121 college students, while the records show that the largest heretofore was 119 some years ago. The freshman class is also the largest in the history of the institution as it numbers sixty and the total enrollment in all departments is 266. I am pleased also to note the excellence of the entrance credits. I would also warn the freshmen that they have above them a sophomore class of excellent scholarship and while they may strive for dubious honors to not forget the attainments of the sophomores."

"We have students here from a wide territory, New York, Pennsylvania, Washington and elsewhere. It is the sincere purpose of the faculty to help you all to do your best and show good results from the work of the year. I have often spoken of the value of a college education and wish to throw out some suggestion. Whatever else you may not attain I trust you will be able through what you learn to distinguish essentials from incidentals. The Savior would remove the rubbish of form and give the true life. All great persons who have moved the world have pointed the way to essential things. The power enables us to see both sides of all questions and decide each matter on its merits, while the ignorant would decide hastily and without due consideration. A college education broadens the intellect, enlarges the sympathies and creates an earnest desire for truth."

Only a moral man can make a moral distinction. You will find many things to distract your attention, but I hope you will not be influenced by them. I hope your sympathies and characters will be enriched that you will be ready to devote yourselves to the welfare of your fellow men.

The Address of Dr. Post.

Rev. R. O. Post, D. D., then introduced and gave a fine address to the young people. Only a few sentences are quoted. "I cordially welcome you all to Jacksonville and to Illinois college and here let me say at the beginning. You come here to get great gain in many things and you will get out of the college what you put into it and nothing more. Education develops the body and mind. It will not add soul, because that word has been so abused. I have been reading a book, 'The Inside of the Cup,' which I recommend to you all. When I was young and conceited as you are I thought that half the responsibility rested on me and half on the teachers, but now I put it 75 on teachers and 25 on the students. I met once a band of young men from Williams college and the grand effect of the character of Mark Hopkins was on all of them. I have heard of Mary Lyon's grandchildren. Her girls went out from Mt. Holyoke to become the mothers of the greatest men this world has known. I would say one half the education comes from the spirit of the campus, 30 per cent from the teachers and 20 per cent from yourselves. I wish all the students could be housed and fed on the campus and get the grand spirit from its atmosphere. That all might be strictly honorable; never cheat; never use a pony or do a dishonorable thing. A devoted mother wrote her sons at college to live and do so that they would leave the world better than when they found it. Again I bid you welcome."

ANNUAL TOURNAMENT.

The opening day of the two days' shoot of the Nichols Park Gun club will be held today, under the management of J. A. Groves. Among the marksmen who arrived in city last night to participate in the shoot are Harry Reams of Peoria; A. H. Ammanus (Winchester Co.), of Peotone; Max Knaessl, Ottawa; J. W. Barre (U. M. C. and Remington Co.), Louisiana, Mo., and H. E. Winnans (Western Cartridge Co.), Carthage. Others who are expected in the city today include Bart Lewis, Auburn; A. C. Buckles, Lake Forest; E. S. Graham, Ingleside, Ill.; H. W. Cadwallader, Decatur; A. C. Connor, Springfield; Dr. J. R. Lieb, Springfield; G. T. Hall, Loami; also a number of Chicago men.

MR. BIDDLE LEAVES FOR CASEY.

Rev. J. A. Biddle, who has served acceptably as pastor of the M. E. church at Murrayville for several years, was in Jacksonville yesterday enroute to his new charge at Casey. Mr. Biddle is leaving a good record and taking with him the kindly wishes of many friends in Morgan county.

NEAL DRINK AND DRUG CURE

Three years ago, after the first where fine, large Neal Institutes have been established. Already over 20,000 persons have been saved from Drink's Curse, and the work is being rapidly extended to all parts of the civilized world.

The secret of the wonderful success of the Neal Three Day Treatment is that it does more for the drinking man in a few days than any of the old time "cures" does in several weeks. Satisfactory results are guaranteed by an agreement to refund the full amount paid by any patient who is not entirely satisfied at the end of the treatment.

Blood is Purified Quickly in Summer

Here is a Remedy that has Wonderful Action and Promotes Health.

S. S. Makes Your Blood Corpuscles Unite for Mutual Protection.

Mingling with your food, arousing stomach action, absorbed immediately into your blood, the famous remedy known as S. S. S. has a wonderful action. Its main purpose is to stimulate cellular activity or that peculiar process which instantly changes the worn-out cells for the new red blood corpuscles.

The medicinal value of the components of S. S. S. is relatively just as vital to healthy blood as the nutrient obtained from grain, meat, fats, sugars or any other part of our daily food is to the natural reconstructive requirements of the tissues. And there is one component of S. S. S. which serves the active purpose of stimulating the cellular tissue to a healthy and judicious selection of its own essential nutrients. Thus, in cases of skin diseases such as eczema, acne, herpes, tetter or psoriasis, first purify your blood with S. S. S. so it will enable the tissues to rebuild their cellular strength and regain their normal health.

S. S. S. is purely a botanical product, and you will make a great mistake to have some enthusiast palm off a mineral preparation that may do you irreparable harm.

S. S. S. is prepared by The Swift Specific Co., 191 Swift Bldg., Atlanta, Ga., and if you have any obstinate skin trouble, write to their Medical Department for free advice. It will be worth your while to do so.

WILL HOLD AGRICULTURAL EXTENSION SCHOOLS

University of Illinois Has Arranged Plan For Bringing Farm and Crop Information to Farmers.

The College of Agriculture of the University of Illinois announces a series of Agricultural Extension schools to be held during the year 1913-14. Each school will run through a period of one week, beginning Monday afternoon and ending Saturday morning, with two sessions in the morning, two in the afternoon and one in the evening. Students in attendance upon the day sessions will be expected to register for the purpose and to attend throughout the week. The evening sessions will be open to the public without registration.

The instruction will cover the subjects substantially as follows:

Soils.—The treatment best adapted to the special soils of the region based on the soil survey.

Farm Mechanics—Farm machinery; cement construction; silo building; lighting systems; gasoline engines. (But limited work can be given in this.)

Dairy Farming—Dairy cattle judging; the Babcock test; feeding; sanitary milk production.

Animal Husbandry—Stock judging; feeding; compounding rations; improvement by grading.

Horticulture—Spraying; pruning; the home supply of fruits and vegetables; the farmer's vegetable garden.

In connection with these extension schools, the community may or may not arrange with the university for parallel schools in household science, and in case such a school is to be conducted it may be either upon the one-teacher or the two-teacher plan, depending upon the amount of work desired.

The college will, so far as possible, organize and provide instructors for the conduct of the schools. It will number about five for the agricultural course and either one or two for household science, making in all about six or seven instructors.

The locality applying for the school will be expected to guarantee all local expenses and the traveling and living expenses of the instructors.

Application for a school should be made upon a form which will be furnished by the College of Agriculture, and should be signed by not less than twenty-five representative citizens (preferably equally divided between the country and the town in which the school is to be held), pledging their support, guaranteeing the expenses heretofore stated, and providing suitable rooms for the conduct of the school.

Not less than one week before the opening of the school the College of Agriculture should be provided with a list of students actually registered for attendance throughout the course, said list to be not fewer than forty. Additional registrations may be accepted any time up to the opening of the school, but the minimum number herein mentioned is necessary to justify the holding of the session.

The local committee is free to pursue any plan it pleases in respect to raising funds and conducting the local arrangements, but at least a minimum fee for registration is recommended in order to more certainly insure a faithful attendance.

Other things being at all equal, preference will be given in locating these schools, to places where it is evident that active co-operation is contemplated with the local school management.

Extension Schools will be held at the following places: Effingham, Effingham county, Oct. 20-28; Champaign, Cass county, Oct. 27-Nov. 1; Onarga, Iroquois county, Dec. 8-13; Raymond, Montgomery county, Dec. 8-13; Genesee, Henry county, Dec. 29-Jan. 3; Lombard college, Knox county, Jan. 12-17; Adrian, Hancock county, Feb. 2-7; Ottawa, LaSalle county, Feb. 9-14; Headington, Knox county, Feb. 16-20; Joliet, Will county, Feb. 23-28.

The Illinois Corn Growers' and Stockmen's convention, probably known as the "Short Course," will be held January 19-31, 1914, at the College of Agriculture, Urbana, Ill.

FOR THOSE WHO LOVE MUSIC. The Illinois College Conservatory of Music is offering a special course in Music Appreciation. This course is designed for individuals who lack the time for special study of either vocal or instrumental music. For further information apply to Director or Kitchell at the Conservatory.

THIS IS CERTAIN

The Proof That Jacksonville Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting relief.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the belief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonial. They say time has completed the test.

John Minter, 42 South East street, Jacksonville, Ill., says: "I gladly recommend Doan's Kidney Pills, as I know them to be worthy of praise. I have been telling of my experience with this remedy for many years. I took Doan's Kidney Pills for pain in my back and other symptoms of kidney trouble and found them effective. I always advise the use of this remedy, when I have an opportunity."

A PLEA.

Now that the coal hauling season is with us, it should be on the heart and conscience of every right minded woman and man in Jacksonville to have care and thought for the patient toiling animals pulling the loads. One sees daily on our streets, overburdened, straining horses and mules, each rib in plain evidence, totally unfit for such work—while aloft on the wagon sits several hundred pounds of man, armed with a fine whip (usually a black snake), which he uses freely. There should be discrimination shown by dealers in sending out loads, as to condition of animals, distance, weather conditions, &c. But light weight, poorly fed, ill treated beasts are given loads fit only for good teams. There should be a city law, in effective force, governing this, and dealers fined who try to send out more than the regulation number of bushels to a load. A few dealers in town use fairly good teams, others should be arrested and heavily fined. Buyers could regulate much of this abuse by insisting on fair teams, no brutality by the drivers, and humane loads—boycotting firms not complying with such rules. The approaches to some homes are simply awful, yet the team is lashed and beaten 'till the impossible is done. Another abuse, calling for regulation, is drivers forcing a team to trot with full load. Jacksonville is far, far behind other places of like size and character in its care for the dumb helpers God has given us to be merciful to—not to abuse, and He will surely heavily punish those who disobey His plain commands.

Friends Expected Her to Die.

"I sincerely believe my life was saved in the Fall of 1910 by using Chamberlain's Colic, Cholera and Diarrhoea Remedy, writes Mrs. Agnes Booth, Tonawanda, N. Y. "I was taken with diarrhoea followed by an attack of acute indigestion. Power of the pen falters to portray the agonies I endured. My friends expected me to die as I had been unable to get relief for so long a time. This remedy went directly to the seat of the trouble and cured me in a few hours' time." For sale by all dealers. DON CHENAULT WINS RACE FROM GEER'S COLT
BREAKS SEASON'S RECORD FOR THREE YEAR OLDS.

Charleston Colt Wins Horse Review Futurity From Etawah—Dudie Archdale Trots Fastest Mile of the Year.

Columbus, Ohio, Sept. 24.—Don Chenault, owned in Charleston, W Va., today at the Grand Circuit track, did sensational trotting and took the Horse Review Futurity for three year olds away from a large field, of which Etawah was the favorite. The time for the first heat was 2:06 1/4, making Don Chenault the second fastest three-year-old trotter of history and breaker of this season's record.

Etawah, whose first defeat this year, came today, was the contender in the first heat and went away beside Don Chenault in the second. The Geer's colt made a break before the first turn was reached and lost so much ground that he could not overtake the leaders. Now-a-day Girl set the pace for most of the mile, Don Chenault coming forward in the stretch.

Dudie Archdale, with Anvil furnishing the competition, trotted the fastest race mile for the year when he did the second and final heat of the free-for-all trot in 2:03 1/4. Anvil was beaten by a head.

New Haven, Conn., Sept. 24.—Yale opened its football season today by defeating Wesleyan 21 to 0 in a hard fought game on Yale field. There was no scoring until the second period, when Knowles went over the line for a touchdown. Wesleyan braved and for the remainder of the period played the Blue off its feet by a series of brilliant forward passes, but lacked the power to score.

Yale played somewhat better with Cornish at quarter in the last half, when two more touchdowns were made. Ketcham kicked the three goals from touchdowns.

URSINUS EASY FOR CORNELL.

Ithaca, N. Y., Sept. 24.—Ursinus was weak prey for Cornell today, the red and white team winning its first game of the season by a score of 41 to 0. The Pennsylvanians were helpless before the smashing advances of Barrett, the Cornell quarter, aided by Phillipi, Fritz and McIlvaine. Cornell scored once in each the first and second periods and twice in each the third and fourth periods.

A STRONG REFERENCE.

A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
persistency, which firmly secured for
him a good position.

VIEWS VARY ON SEX EDUCATION
IN THE PUBLIC SCHOOLS

Wide Difference of Opinion as to Wisdom of Instruction Along These Lines

To what extent can sex instruction be given in the public schools? Wide difference of opinion still exists among school men on the subject, judging from reports received at the United States Bureau of Education. There is widespread or what President Foster, of Reed College, calls "The Social Emergency," and general agreement as to the need of action against the social evil, but when it comes as to question of what part the public school shall play, the ideas range from a detailed plan of sex instruction beginning in the elementary schools to a determined opposition to any form of sex education whatsoever.

Several Points of Attack.

Professor Thomas M. Balliet, of New York University, outlines several points of attack in sex education. He believes sex instruction can now be given to the following groups: (1) To parents, by means of lectures; (2) to enlisted men in the Army and Navy, where the need for it is urgent; (3) to college students, both men and women; (4) to young people in Y. M. C. A.'s and similar associations. Dr. Balliet considers sex instruction to college students particularly valuable; because it will enable them to impart sex knowledge in turn to pupils in elementary and secondary schools, as soon as the public is prepared for this step.

Recently medical men have joined hands with school men in the sex hygiene movement. Dr. Hugh Cabot, a distinguished physician of Boston is one of the leaders of the demand for sex instruction in the schools. He declares that the policy of silence and punishment as practiced in the past has failed. He suggests education, rather than punishment, as a remedy for social evils.

He says: "Sooner or later we shall come to realize that teaching the comprehension of the sex instinct is the function of the public school, though we are far from such a realization today." Other members of the American Federation of Sex Hygiene, including former President Eliot of Harvard, who is the head of the organization, hold equally positive views of the need for sex instruction.

See Danger in Instruction.

On the other hand, there are many both among educators and physicians who see danger in sex instruction in the schools. Dr. Tierney, president of Woodstock College, Maryland, expresses the fear that is in the minds of many thinkers, when he says: "Sex instruction is apt to put forward by some years the time of suggestion and temptation. Safety lies in diverting the attention from sex details."

Officials of the Bureau of Education believe that the sex hygiene question is about to assume great importance in many school systems. Chicago is now struggling with the problem; the board of education has appropriated money to provide lectures on sex hygiene to parents and to groups of high school pupils with the ultimate idea of extending sex instruction to the elementary schools if the experiment with older pupils proves satisfactory. Teachers in New York and other cities report considerable success in incorporating sex instruction into elementary work in biology. State Superintendent Hyatt of California, has issued a leaflet on sex instruction that has been considered worthy of distribution by the United States government while the American Federation of Sex Hygiene, carrying out its plan of constructive work against the social evil, has drawn up what is probably the most careful outline yet devised for sex education at every stages of life, both in school and at home.

FREIGHT CAR

SURPLUS INCREASE. Possibilities of a car famine, which invariably loom up at this time of the year during the annual rush of coal and crop shipments, have been greatly reduced. According to statistics given out by the American Railway Association, there was a total surplus of 61,753 railroad cars September 15 throughout the country. Compared with the number of idle cars two weeks ago, the report shows that 11,823 of these have been put in operation in sections where a shortage has existed. It also shows that in certain parts of the country there are 34,373 more cars ready for service than there were a year ago.

The total shortage of cars September 15 was 21,594. Although this is an increase of 6,324 over the number two weeks ago, it shows that there is a decided improvement over the shortage condition last year. The car shortage at that time was 36,000. Co-operation of the railroads and shippers, it is said, has brought about the rapid movement in cars. Employers of practically all the railroads have been requested to load and unload cars as rapidly as possible.

SPEND DAY WITH PASTOR.

Wednesday about twenty people from Bates and New Berlin came to the city and spent the day at the home of their pastor, Rev. J. O. Hough, on South Diamond street. The visitors brought with them well filled baskets and at noon a picnic dinner was enjoyed. During the afternoon the missionary society gave a program and the day proved most pleasant.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Tablets invigorate the stomach and liver and enable them to perform their functions naturally. For sale by all dealers. (Adv.)

PRINCETON GRADUATE COLLEGE HAS OPENED.

Is First Institution of Its Kind In This Country.

Princeton, N. J., Sept. 24.—The new Princeton graduate college, the first of its kind in this country, was opened today with a promising enrollment. It is believed by the founders of this college that its opening will mark an important development in college education in the United States. The only institutions of a similar kind are to be found at the Fellows' college at Oxford, at Cambridge, England, and in connection with several continental universities.

The needs of a graduate college have been felt for a long time at Princeton. It was first mentioned during the regime of President Wilson, and plans for carrying the work were started shortly afterward. Graduate work has been included in the courses of the university since 1877, during the administration of President James McCosh, when Princeton was still the "College of New Jersey." No attempt was made to give graduate students a separate home until "Merwick," an estate of eleven acres in Bayard lane, was purchased a few years ago as a temporary residence.

The number of students was limited to fourteen, with allowance for twelve more at the table. An additional house was secured recently, affording lodging for eight students, while all others who take courses in the graduate school entirely depend upon the rooms in the university and upon town rooms.

Under the rule of the university allowing a certain number of graduate fellowships, some of the scholars are employed as substitutes and assistants in the various courses which they are pursuing, and accommodations are given to them in the dormitories.

The present equipment of the graduate college consists of five large and handsome buildings, entirely fireproof, heated with steam and lighted with electricity. All students' rooms are completely furnished, including even window curtains, bedding and bed linen. A single suite includes usually a bedroom and a well lighted study. The present capacity of the graduate college is 102 students and it is expected that in a year or two it will be possible to accommodate considerably more students. The classes are held in the university halls and the regular members of the faculty are the instructors. It is planned, however, to secure the services of a number of prominent lecturers.

How to Cure Sick Headache.

C. E. Mustoe, of Fresno, Calif., has adopted the correct treatment for sick headache. He says: "I have used Chamberlain's Tablets for sick headache and constipation for the past two years. I have never found any preparation so satisfactory in every respect for this trouble." For sale by all dealers. (Adv.)

EAT CABBAGE, FISH,
SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach, if You'll Take "Pape's Diaepsin"—Try This.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour gassy stomach? Now, Mr. and Mrs. Dyspeptic, jot this down: "Pape's Diaepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diaepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diaepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large 50-cent case of Pape's Diaepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.—Adv.

**FELKER MAY NOT GIVE ANSWER
UNTIL LATE NEXT WEEK**

Thaw's Counsel Say It May Be Necessary To Ask Further Time in Which To File Briefs.

Concord, N. H., Sept. 24.—Governor Felker, may not be able to give his answer to the New York state's request for the extradition of Harry K. Thaw until late next week. Counsel for Thaw said tonight that it may be found necessary to ask for a further extension of time in which to file briefs supplemental to the argument introduced at the hearing before the governor yesterday. Monday next was the date originally set for filing those briefs.

While his lawyers were occupied in the preparations of their brief, Thaw himself, enjoyed a rare outing, accompanied by his mother, Mrs. Mary C. Thaw. They motored to Salisbury, twenty miles north of Concord and visited the birthplace of Daniel Webster, lately the scene of centennial observances. Thaw was under the care of Sheriff Drew during the two hours pleasure trip.

TWO DIE IN FOREST FIRE.

Napa, Cal., Sept. 24.—Mrs. M. Hutchinson and her infant son of Foss Valley were found dead today in the cellar of the Hutchinson home which was destroyed by a forest fire.

Mrs. Hutchinson's 14 year old boy climbed a fig tree and escaped death, but he was badly burned when the fire rushed through the tree singeing the leaves. The lad stayed in the tree until rescuers came at day-light.

MOTORCYCLIST KILLED.

Freeport, Ill., Sept. 24.—While competing in a motorcycle hill climbing contest today, Victor L. Younger, reporter for the Freeport Journal and secretary of Illinois competition in the Board of Federation of American Motorcyclists, was killed instantly. His motorcycle got beyond control and struck a telephone pole.

VOTE TO AID STRIKERS.

Springfield, Ill., Sept. 24.—The executive board of the Illinois Mine Workers in session here today voted to lend \$100,000 out of their million dollar treasury for the benefit of the striking miners in Colorado. This is the second \$100,000 loan in the past month. The first was for the striking copper miners of Michigan.

**MOYER ASKS FEDERAL PROBE
IN COPPER MINERS' STRIKE**

President of Western Federation of Miners Charges That Peonage Laws Have Been Violated.

Calumet, Mich., Sept. 24.—President Moyer of the Western Federation of Miners today requested Senators Borah and Shaftroth to procure a federal investigation of the copper miners' strike, charging that peonage laws had been violated by the mine owners. Managers of the mines assert that nothing illegal has been done by them in procuring men to take the place of strikers.

President Moyer declared that 33 men brought to Calumet recently by the Quincy Mining company were brought to the mines under false representations and held against their will. According to the mining officials these men have not been held against their wills and charges of peonage cannot be sustained. Federation officials allege violation of the contract labor law and that the men were brought here under false pretenses. They say they have affidavits to this effect.

John L. Lewis of the mining department of the American Federation of Labor arrived today to assist in directing the strike. He will address a number of meetings.

CORN DAMAGED BY FROST.

A good many farmers are complaining that corn was damaged by the recent frost. Many fields of late planted corn after the recent rains, followed by warm weather, seemed to be improving greatly in condition but the early and severe frost put a sudden end to this development. In some fields the corn turned black after the frost and while this corn is badly damaged and by no means marketable it still can be used for feeding stock and so will not represent a total loss.

**MAIN BREAKS CAUSING
HEAVY DAMAGE**

St. Louis, Mo., Sept. 24.—Thousands of dollars damage was wrought, the lives of scores of families were endangered and several St. Louis streets became the scene of a raging torrent when a thirty-six inch water main burst. One hundred men were rushed to the scene by the street department, but at midnight the water was still three deep in the streets near the break.

**BERTONI CHOSEN
BRIGADIER GENERAL**

Bloomington, Ill., Sept. 24.—The Illinois brigade, uniform rank, Knights of Pythias, tonight elected John P. Bertoni, of this city, brigadier general. General Bertoni has been colonel of the Fourth Regiment for years, and when General Barclay, of Springfield, retired as brigadier general last summer, Colonel Bertoni was chosen acting-brigadier general.

**POLICE BELIEVE SLAYER IS
STILL IN INDIANAPOLIS**

Entire Force Searches Rooming
Houses and Hotels for Joseph El-
lis—Wife in Critical Condition.

Indianapolis, Ind., Sept. 24.—Working on a theory that Joseph Ellis, who they say murdered Joseph Schiansky, a merchant here Monday, still is in Indianapolis, the entire police force tonight is searching rooming houses and hotels hoping to find some trace of the man. A rooming house keeper late today notified the police that a man answering the description of the murderer and closely resembling the picture published, had applied at her home for a room.

The robber, who has operated in several cities to take advantage of his likeness to Fred Brokaw, under arrest at San Francisco to seek safety after his crimes, the detectives believe. They say that it is possible that the merchant robbed in Pittsburgh identified the picture of Brokaw as the man who attacked him, when he really was a victim of the man believed to be Ellis.

Mrs. Anderson, wife of Ellis, who shot herself when convinced it was her husband who killed Schiansky, is tonight reported by her physician to be in a critical condition.

Can Prove Alibi.

San Francisco, Sept. 24.—Relatives of Fred Brokaw, mentioned in connection with the Indianapolis murder, say that a complete alibi can be produced for him if necessary. Brokaw declares he will fight extradition to Indianapolis.

**RACE RIOTING BETWEEN COAL
MINERS AT BENTON ABATES**

Troops Spend Night In Armory To
Be In Readiness Should Violence
Break Out Again.

Benton, Ill., Sept. 24.—The rioting between American and alien coal miners, which has stirred this city since Monday was abated late tonight. The state troops were taken off the streets and ordered to the armory for the night to be in readiness for police duty should violence break out again.

The four men accused of the double murder which precipitated the riots are still at large. Ten other foreigners thought to be implicated in the murderous attack on the American musicians following their departure from a Polish dance Saturday night are being held in the jail here chiefly for their own protection from the enraged American miners.

The military guard placed around the coal mines here yesterday was removed today and work was resumed by both Americans and foreigners.

FIRST SERIOUS FOOT-

BALL ACCIDENT.
Worcester, Mass., Sept. 24.—The first serious football accident in the east this season, may cost the life of Vernon Belyea, who played left half back or the Norwich University eleven today in the game with Holy Cross. Belyea suffered a fractured spine. At St. Vincent's Hospital, it was said tonight that his condition was "very serious."

SIX HURT IN STORM

Eureka, Kan., Sept. 24.—Two buildings in the business district were unroofed, a stone residence was demolished and several other buildings were damaged by a severe wind storm here tonight.

Six persons were injured but none seriously. The Atchison, Topeka & Santa Fe railway depot here was wrecked.
